

THE ETL COURSE

ENHANCED TEACHING AND LEARNING

THE COURSE

The CAM Academy Trust is pleased to offer this professional development programme for teachers in year two (plus) of the Early Career Framework, for experienced staff looking to enhance their teaching, or returners to the profession.

The ETL extends delegates' teaching toolkits by building on theoretical elements of the ECF in a practical way.

The programme consists of 4 day-long sessions in Trust schools and includes observations:

Day 1: The positive classroom.

Day 2: Talk for learning

Day 3: Feedback and assessment

Day 4: Adaptive and inclusive teaching

WHAT OUR DELEGATES HAVE SAID

- I have been very impressed with the course. Every session I have taken away ideas to apply to and improve my teaching practice – 100% better than the external ECT training.
- The course has given me a lot of new techniques and strategies to try in the classroom.
- Greater confidence in using group work in my lessons.
- I have got a lot of practical tools from the course that have made a real difference to my teaching.
- It's been so useful to see other trust schools, observe other teachers and share and learn from others.
- Activities I have employed in my own classroom.
- Techniques used by teachers in other schools and subjects have been really helpful to see.
- Really insightful to see how other schools/departments work.
- The course has helped me evaluate my practice, helping me to be a better teacher as well as giving me new ideas by introducing me to teachers out of my subject.
- Having the opportunity to observe in other schools, talk with those from other departments/schools, and with concrete objectives to try from each session has been great.
- Taking things to try from facilitators (in course booklet) or from observing/talking to other course members has given me lots to consider.
- Space and time to consider how to overcome issues with current teaching groups
